- Minimalistic joint detailing
- Financially competitive
- Whiteboards, shelves, and cabinets can be suspended from the partition
- Ease of maintenance
- Awarded the Danish Indoor Climate Label
- Fire classified
- Sound tested
- Approved by ETA Denmark

DEKO PF is an obvious choice when you want a minimalistic partition with short installation time.

DEKO PF is based on a unique steel framework. The framework is concealed with pre-treated gypsum boards giving the partition comparatively high impact stability.

The visible panel surface finish is achieved with discreet bevel edged boards which eliminate the need for visible profile joint trims.

Only the discrete gypsum board joint trims, which give the partition character, are visible to the eye.
